

AI THAT POWERS SPEED, PRECISION, & MISSION SUCCESS

ADVANCING AMERICA'S DEFENDERS & PROTECTORS

Everything we do is dedicated to those who serve – service members, military families, and civil servants – and those who support them. We craft mission-ready solutions and products that seamlessly integrate AI, cybersecurity, and digital modernization to enhance national security, strengthen defense capabilities, and drive progress while safeguarding America's future.

ARTIFICIAL INTELLIGENCE

Leverages advanced analytics to surface insights and democratize knowledge that drives action

APPLICATION MODERNIZATION

Transforms legacy applications into digital-centric workflows using continuous DevSecOps and enhanced security

DIGITAL EXPERIENCE

Applies Human-Centered Design to align user needs, mission goals, and technology for customer adoption

ENTERPRISE IT

Advances organizational hardware, networks, systems, and services that enable today's modern workforce

AI-ENABLED SOLUTIONS BUILT TO ACCELERATE

Our scalable, ready-to-use products and solutions reduce complexity, enhance security, and drive strategic impact—whether off-the-shelf or fully customized. Backed by human expertise and advanced AI, we deliver secure, competitive, and mission-ready solutions aligned with federal priorities.

OUR PRODUCTS

Iris
AUDIO + VIDEO FOR HAZARDOUS & CONFINED SPACES

Midas
GOVERNED AI FOR SOFTWARE MODERNIZATION

Sapphire
NEXT-GEN OBSERVABILITY FOR NETWORKS

OUR SOLUTION ACCELERATORS

HORIZONHUNT:
AIR-GAPPED RAG ACCELERATOR
